SURAJ NAVGIRE

ISTQB CERTIFIED TESTER – FOUNDATION LEVEL (CTFL)

QA TESTER | MANUAL + AUTOMATION

Pune, Maharashtra, India | +91 9604962775 | surajnavgire092@gmail.com

LinkedIn: linkedin.com/in/suraj-navgire | GitHub: github.com/Suraj7-qa

Portfolio: suraj7-qa.github.io/suraj-navgire-qa

PROFESSIONAL SUMMARY

QA Tester with **4 years of software testing experience** across web and Android applications, combining manual testing with UI automation using **Playwright and TypeScript**. Experienced in test planning, test case design, functional and regression testing, API validation, SQL-based backend verification, and defect management. Skilled in using Generative AI tools to support test-plan and test-case creation, automation development and debugging, test-data and edge-case generation, and AI agent development for QA workflows.

CORE COMPETENCIES & SKILLS

Automation Testing: Playwright, Playwright Test, TypeScript, JavaScript, Page Object Model (POM), UI automation, locators, assertions, cross-browser testing, HTML reporting

Manual Testing: Functional, regression, smoke, sanity, exploratory, integration, system testing, retesting, test planning, test-case design, defect lifecycle

API & Database Testing: Postman, REST API testing, HTTP methods, status codes, SQL, MySQL, backend data validation

Tools & Workflow: Jira, Git, GitHub, Node.js, npm, Chrome DevTools, JSON, Google Sheets, Excel, Agile/Scrum

Generative AI & Agent Development: ChatGPT, GitHub Copilot, Gemini, Claude; AI-assisted test planning, test-case/test-data generation, automation script development, debugging, edge-case identification, AI agent development for QA workflows

PROFESSIONAL EXPERIENCE

Sparkviz Technologies Pvt Ltd

QA Engineer | Manual + Automation | Oct 2022 – Present | Bengaluru, India | E-commerce / Web & Android

- **Test Design & Execution:** Designed and executed **500+ test cases** across functional, regression, smoke, sanity, and exploratory testing for web and Android applications.
- **Mobile & Cross-Browser Testing:** Tested Android workflows across **5+ device configurations and OS versions**; checked Chrome, Firefox, Safari, and Edge compatibility.
- **API & Database Validation:** Validated APIs using Postman and verified backend data consistency with SQL queries.
- **Defect Management:** Documented **300+ defects** in Jira with reproduction steps, severity, priority, and supporting evidence.
- **QA Documentation:** Maintained test plans, traceability, and execution reports.

GR Silver Designs International

Freelance QA Engineer | Dec 2025 – Sep 2026 | E-commerce / Web & Android

- **End-to-End Testing:** Tested **three different products** across web, mobile, and admin panel workflows.
- **Test Coverage & Defects:** Designed and executed **1,500+ test cases** and documented **600+ defects** across assigned projects.
- **Commerce Workflows:** Tested catalogues, search, shopping carts, customer accounts, international pricing, and gemstone/jewellery purchase flows.
- **Service Workflows:** Validated spiritual e-commerce product purchases and online consultations via chat, audio, and video.
- **Regression & Retesting:** Retested fixes and documented issues with clear reproduction steps, severity, priority, and evidence.

Trevia EV

Freelance QA Engineer | Manual + Automation | Aug 2026 – Oct 2026 | EV Charging / CMS Web Application

- **CMS Testing:** Covered **12 CMS modules**, including Stations, Sessions, Fleets, Tariffs, Settlements, Support, Alerts, and Admin Access.
- **Execution & Defects:** Designed and executed **500+ test cases** and documented close to **100 defects** across functional, negative, regression, and integration scenarios.
- **API & UI Validation:** Checked API requests, response data, status codes, and UI consistency using Chrome DevTools Network.
- **Playwright Automation:** Designed a Playwright framework using TypeScript, Page Object Model principles, and reusable components; created and executed UI automation scripts for **three CMS modules**.
- **Version Control & AI:** Used Git/GitHub and AI coding assistants for test-plan preparation, test-case generation, script development/debugging, edge cases, and QA workflow agent development.

CERTIFICATION

ISTQB Certified Tester – Foundation Level (CTFL) | ISTQB | February 2026

International Software Testing Qualifications Board (ISTQB)

EDUCATION

Bachelor of Technology (B.Tech) | 2018–2021

Dr. Babasaheb Ambedkar Technological University | CGPA: 8.05 / 10
